Q.1 Read the following comprehensive paragraph and answer all 05 questions mentions below -

05 marks

Indian Railways is the biggest Government institution of India which gives more than 17 Lakh people employment. Indian Railways is the biggest railway system of Asia and the second biggest railway system of the world. In India the first train was run between Mumbai and Thane IN 1853. During the freedom struggle the freedom fighters apposed the extension of railway network in the country because the railway system used by the Britishers for fulfilling and their interests were in the exploitation of India their own interests. After independence there is a new chapter started in the development of Railway Government of India established its separate Ministry of Railways. The total responsibility of Railways is on the Ministry of Railways.

The State Government have no authority to interfere in Railway Network. From the time of independence the developing process of Railways is very rapidly moving now the old coal engines are almost finished and Diesel and electric engines are using and the Government is determinate to replace all diesel engines with electric engines. Railway is regularly working for giving the good facilities of their Passengers. Government of India established a separate Paramilitary Force R.P.F. (Railway Protection Force). The main working of R.P.F. is to protect the property and passengers of the Railway. The jawans of R.P.F. are always travelled with express trains and mails. Railway has its different telephone department which is totally different from Department of Telecom, Government of India.

Railway provides Residence and Medical Aid to their employees. We easily see a residential colony and a dispensary near every Railway Station. There are almost 7,500 small and big Railway Stations in India. Railway is also help the Indian people in their trade almost 30-40% goods are carried by Railway in different parts of country.
